

Zena, the original one, made in Switzerland since 1936. Stays sharp forever and won't rust. With its exceptionally sharp movable blade made of stainless steel, it will peel anything: potatoes, carrots, cucumbers, radishes, pumpkin, asparagus etc. It peels economically in thin peels with little waste. It can also be used for cutting, slicing and shredding cheese, cabbage etc. It is suitable for both right and left hand users, and is dishwasher safe.

The SLIM peeler (SPSLIM) is a cheaper alternative with the same stainless steel blade as the STAR peeler in fashion colours to suit every kitchen. They come loose in a CDU of 50 pieces.
