

Zena, the original one, made in Switzerland since 1936. Stays sharp forever and won't rust. With its exceptionally sharp movable blade made of stainless steel. It is suitable for both right and left hand users, and is dishwasher safe.

The new TOMY peeler (SPTOMY) is similar in look but has a serrated blade especially for peeling tomatoes. It comes in similar packaging and CDU as the STAR peeler (24) with different ID stickers.
